- Server: SQL Server, MySQL Server, IIS, Xampp

- Software: MS Office, Dreamweaver

- Platform: Sharepoint 2010

- Technical Environment: Sandbox

- Graphic: Photoshop, Illustrator, InDesign, Flash

Medius Corporation

Application Developer

November 2012 - October 2014 (2 years)

1800 Dobbin Drive San Jose, CA 95133

A-- Individual Projects:

1/ <http://login.mediuscorp.com/Zendapp/public/survey/index.php>

Build Zend Survey Portal for Zend Company

- Oracle DB: Store information of students, professors, courses, duration, surveys,....

- The student who register for classes will receive their confirmation number to access their survey. Since the survey is completed, the student will receive the confirmation email with his certificate, and be able to print out or download it online.

2/ <http://login.mediuscorp.com/site/login.php>

Build software site for Cisco Clients to buy and download software.

3/ Create the Medius Label App for Medius staffs to scan. The label has the customer and order information, and will be sent to the shipping department for packaging.

B-- Group E-commerce Project:

<https://www.relectric.com/breakerbucks>

a/ Design the listing product pages (Customers can login and shop with points)

b/ Check out products (Recalculate points from Oracle database, send a confirmation emails to customers, and display the "thank you" page)

c/ Debug and fix errors of all button, links, UI,...

d/ Integrate with Restful APIs for the first time customers, and existing customers.

e/ Update products with their prices, sizes, images, and descriptions daily.

Thrive Research Inc

Graphic/Web Developer

July 2011 - August 2012 (1 year 2 months)

170 State St # 205, Los Altos, CA 94022

Create mock-ups, Graphic/UI design for the company website

Create view, table of students, professors, courses, prices...

- Programming Languages: Java, JSP, J2EE, JavaScript, HTML, CSS, Ant, HTML5, CSS3, XML, SQL, jQuery, Ajax, RestfulAPI, DOM, Struts, Hibernate, WinMerge

- Database: MySQL

- Local Server: Tomcat
